

PBI	Tasks	Adelaide	Codey	Hailey	Zoe	Complete
Majority Vote	Unit testing			x - test written but not running		
	System testing		x			
Scanner	Unit testing					
	System testing					
	IR Parse	x				
	CPL Parse					x - all info properly stored from file - ZF
	To run CPL - change the election.electionType to CPL					x - cpl starts with all info from file - ZF
	To run IR - change the election.electionType to IR					** this should be good - adelaide check when you finish IR parse**
	Line 147 scanner.cc uses ".getName()" which I believe isn't doing anything. Line 153 sets Name so I'm not sure what the line 147 loop is supposed to be doing					x - ZF
Eliminate Candidate in IRV	Unit testing			x - several tests written to test candidates are removed properly, not running yet		
	System testing					
Ballot Data Structure	Unit testing - cpl ballot					x - all tests passing - HK
	System testing					
IRV Ballot Data Structure	Unit testing			x - written but not runnin yet		
	System testing					
Voteable Item Implimentation	Unit testing			x - candidate and party tests written already		
	System testing					
Candidate Structure	Unit testing					x - HK
	System testing					
	Multiple definition error on constructor "multiple definition of `Candidate::Candidate(std::__cxx11::basic_string<char, std::char_traits<char>, std::allocator<char> >)`"					Unable to duplicate -AG
	Constructor test fails - getName does not return name passed in via constructor					x - AG
Most Votes in CPL	Unit testing			x - run cpl tests and determine quota tests written		
	System testing					
DetermineAllocatedSeats	Unit testing			x - testing in runcpl		
	System testing					
DistributeRemainderSeats	Unit testing					
	System testing					
CPL Data Structure	Unit testing			x - testing in runcpl		
	System testing					
	Constructor issues, parameters only passed in and not used - we are using the constructor with parameters in line 166 of scanner.cc					
Party Data Structure	Unit testing			x - test written assuming we are only setting name for each party, which we are although if we are only using		
	System testing					
	Constructor missing - needs to be written					
	Looking at scanner.cc I don't believe candidate list is ever set for each party					
Fair Coin Toss	Unit testing					
	System testing					
Audit file and audit.log	Unit testing					
	System testing
